

Figure Drawing

This is an introduction to figure drawing. The underlying assumption of this course is that if an artist can draw anything. Who are interested in pursuing careers in visual arts and are in process of applying for admission to art schools and colleges – this is an important course to take. It provides students with the skills and tools necessary for accurate rendering of the human figure. Working from the model, students will be taught to understand form, the effect of light and shade, the significance of line for creating the illusion of reality.
